```
interface Mail {
    void sendMail();
    void log();
}
class MailImpl implements Mail {
    @Override
    public void sendMail() {
        System.out.println("send");
    }
    @Override
    public void log() {
        System.out.println("log");
    }
}
class Main {
    public static void main(String[] args) {
        MailImpl m1 = new MailImpl();
        m1.sendMail();
        m1.log();
    }
}
```
